

BIOGRAPHY

Eligar Sadeh,
Assistant Professor of Space Studies
University of North Dakota

Eligar Sadeh is an Assistant Professor in the Department of Space Studies at the University of North Dakota where he directs the Space Policy track for the Department and teaches courses on space policy and management. His professional specialization is on the political aspects of space exploration and development of space. Sadeh also serves as a Research Associate with the Space Policy Institute at George Washington University and as an Associate Consultant to Orbital Technologies. Previously, Sadeh served as Program Manager of the Center for Engineering Infrastructure and Sciences in Space at Colorado State University and worked in the aerospace industry as a Systems Engineer with [Lockheed-Martin Space Systems Operations](#). He has a number of publications in *Space Policy* and other peer-reviewed journals, and actively participates within the space community. Of note, is his recent book on space policy entitled *Space Politics and Policy: An Evolutionary Perspective* (Kluwer Academic Publishers, 2002). In this book, Sadeh edited and compiled chapters on space bureaucracy and space management and business practices, and authored a chapter on management of the space program.
